

Data Handling Group

The data handling group deals with the following aspects of Glast data processing.

- System Tests
- Processing Pipeline
- Collaboration Data Server

We have [weekly meetings](#) at 10am on Friday.

We will hold a [developers workshop](#) at SLAC during the week of March 21-25.

An earlier [data handling workshop](#) was held in January 2005. Tony wrote a [personal summary](#).
