

# Items for next year

## Program Notes

- e-mail student talk schedule in addition to posting

## Logistics Notes

- Use SeaGreen Bicycles. Probably deliver ahead of time.
- Remind students to bring plug adapters
- spare power plug converters if there are any we can borrow
- wouldn't hurt to bring a spare laptop

## FSS VM

- Missing env var: PYFITS\_USE\_MEMMAP=0 (useful for model editor)
- include 3FGL and make3FGLxml directly in the VM
