

# How do I build Xerces

The following instructions will install Xerces on Linux.

```
wget http://www.apache.org/dist/xml/xerces-c/xerces-c-current.tar.gz
tar -zxvf xerces-c-current.tar.gz
cd xerces-c-src_2_7_0/src/xercesc
./runConfigure -plinux -cgcc -xg++ -minmem -nsocket -tnative -rpthread -P /path/to/install/dir
make
make install
```

Please read the [Xerces installation guide](#) for more detailed information.
