

Questions (1) learn # params, # mix-coeffs?
 (2)

xc-func-info-type

* init * end * lda * gga * mgga

Need min-dens etc.
 but not function plots.
 (think these are used on CPU). (have "np" param)

xc-func-type

* func * xc-	info-type lda-type gga-type mgga-type
-----------------	--

} these have to be GPU pointers.
