ISOC CHS Update

- ## Ground Readiness Test #5 very successful
  - most extensive ground systems test thus far
  - passed 3 contacts of sample telemetry (~10 GBytes)
    White Sands → MOC → ISOC (L1 processing→LS-002) → GSSC
  - assortment of requirements verified
  - few problems noted (none with ISOC)

- ## CHS release (2.1) I/P
  - new features
    - realtime data display (LICOS)
    - enhanced log display
    - alert/pager system basic functions
  - to be used for GRT6 (Dec)

Schedule Update

- Oct 6   CHS Release 2.1
- Dec 6-7   GRT6 (lights-out ops, contingencies, failover tests)
- Dec 8   CHS Release 2.2 (adds mission planning)
- *~Jan 07   ETE1 (End-To-End test) (exercise a couple LAT PROCs)*
- Jan 07   DITL (Day-In-The-Life tests) (exercise mission planning)
- *~Feb 07   demo L1 & L2 product generation as to be performed in ops (in GRT7 or in Service Challenge)*
- Mar-Aug 07   ETE2-6 (exercise LAT PROCs and ground data processing)
