Shift Log Working Group

- **Shift log:**
 - Nerve center of operations
 - Ties together:
 - Entries by shifters
 - Run information
 - Elog must be fully integrated with the SAS software framework:
 - Run database, data monitoring, trending system etc
 - We communicate with the outside world through eLog!
- **Common shift log system:**
 - Science Ops
 - Flight Ops (CHS)
- **Shift log working group:**
 - Determine requirements for a shift log system
 - Survey candidates
- **Members:**
 - Tony, Max, Heather, Chuck, Eric Charles, Lori, Anders (Chair)
- Tied into the Service Challenge
- **Schedule:**
 - Recommendation by mid-October
 - 'Working' system by December
