

Beamtest06 geometry review - I

**Gamma-ray Large
Area Space
Telescope**

Elena Moretti & Francesco Longo
University and INFN, Trieste, Italy

elena.moretti@ts.infn.it

francesco.longo@ts.infn.it

Motivations

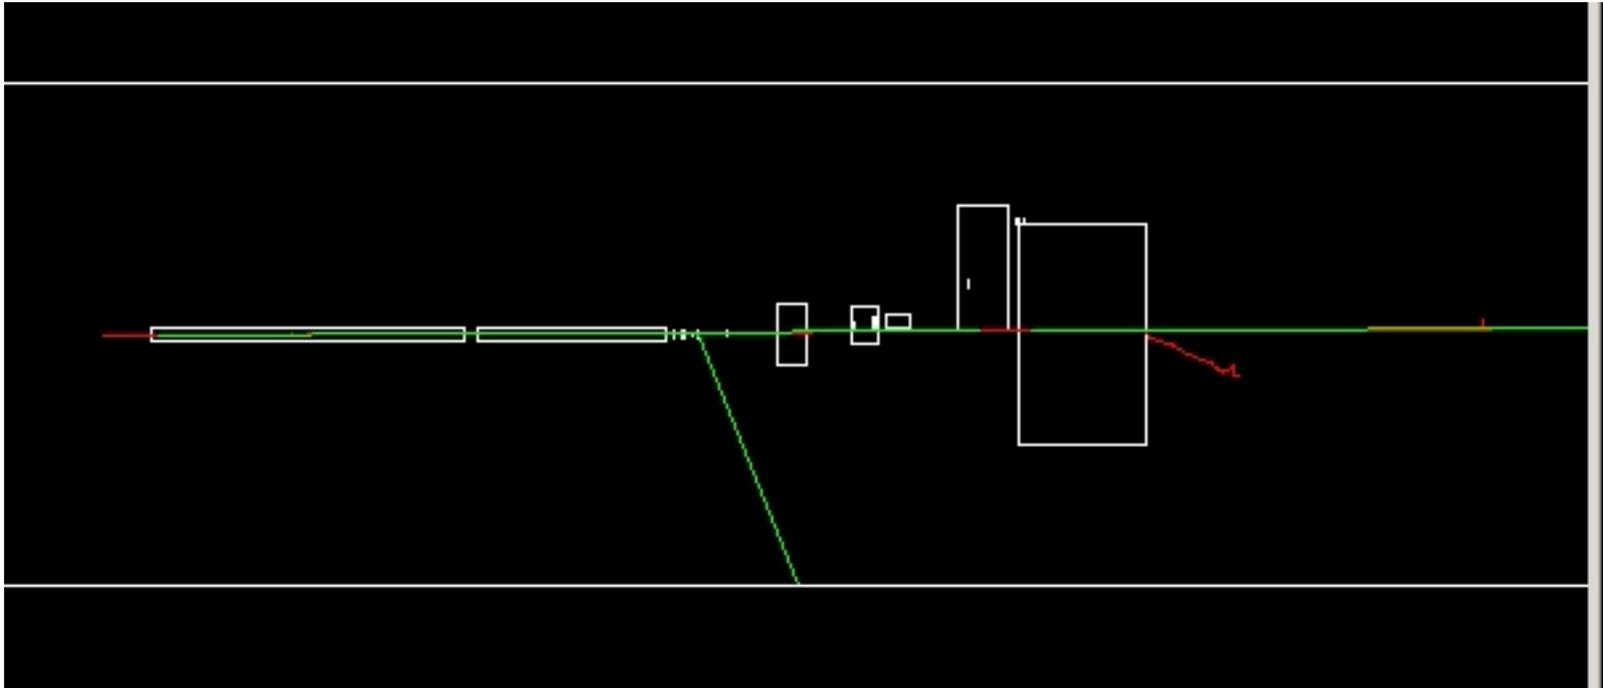

- **Check if beamtest06 is ok with respect to materials and position of detectors**
- **Caveat: different positions and setup for different runs**
- **Work in progress**

PS setup

Cherenkov

Trigger, Magnet, Tagger

EM Cal & Dump

CU

PS materials

Nominal Values

Volume	Material	Position of centre (mm)
C1	CO ₂	-7705; 0; 0
C2	CO ₂	-3505; 0; 0

+ 610 micron Mylar 6 Cherenkov Windows & Air elsewhere

SPS

- **1 Overlapping Detector: Cherenkov Window inside the Cherenkov Volume C1.**

To Do List

- **Verify effect on Simulations**
- **Positions to be verified for different Setups**
