Neighbour xtalk correction

- Just implemented by Zach in CalXtalResponse v0r14p1
- Tested with 700001796

Position measurement problem

Cal position - tkr extrapolated position for logs along the trajectory and -/+ 1 Versus the energy. BEFORE xtalk correction :

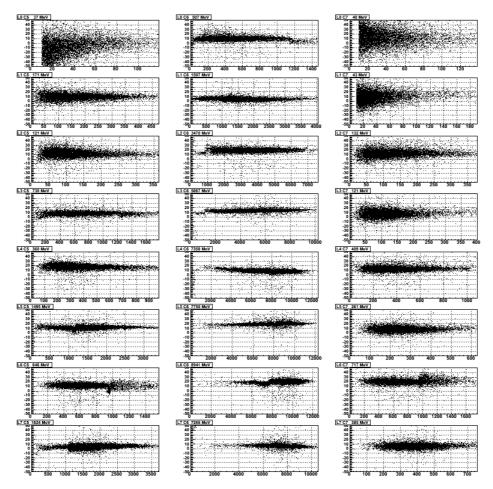

Mar. 21, 2007

Beamtest meeting

Position measurement problem

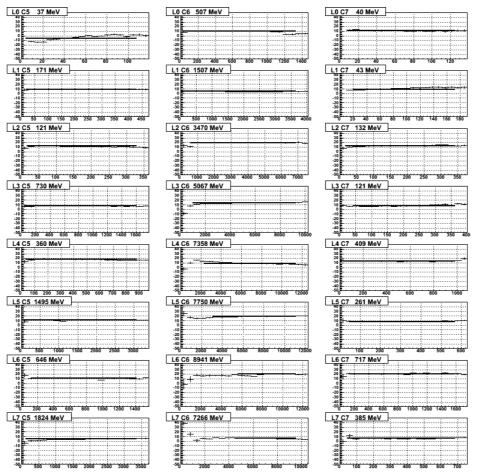

Cal position - tkr extrapolated position for logs along the trajectory and -/+ 1 Versus the energy. AFTER xtalk correction :

Mar. 21, 2007

Beamtest meeting

• Fit the profile histogram with polO

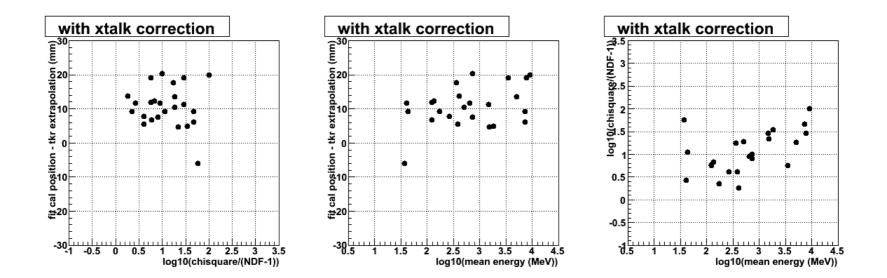

Mar. 21, 2007

Beamtest meeting

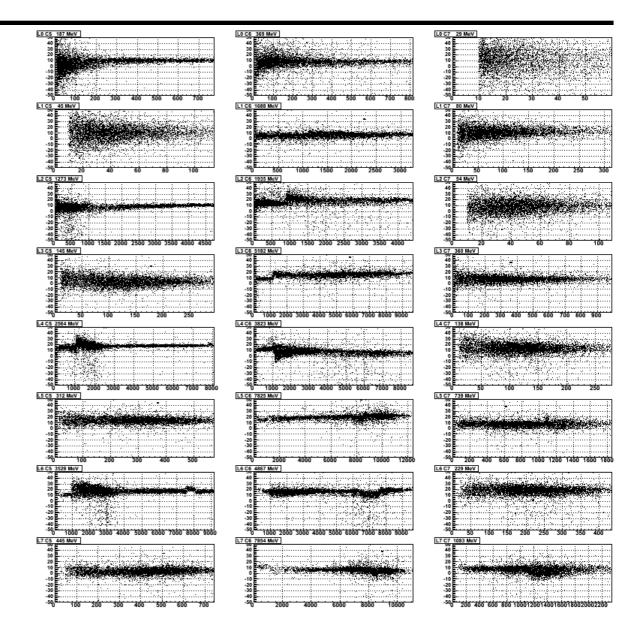

Position measurement

- It is offset by ~10mm
- Tracker/cal alignment or cal calibration problem ?

Position measurement

 Run 700001820 (everything apart last xtalk correction)
