## Address

*3 Rue de la Prairie  
Batiment G1  
App 801  
01630 St Genis-Pouilly  
France*

## Phone

+33 (0) 4.50.20.71.92

## Directions from CERN

[View Larger Map](#)

- Exit CERN. The bus icon in [map 1](#) is Entree B. Turn left on to Route de Meyrin in the direction of France.
- Cross the border to France.
- At the first rotary (where Route de Meyrin and Route de l'Europe meet in [map 1](#)), go straight (second exit).
- At the second rotary ([map 2](#)), go straight (second exit) on to Rue de Geneve.
- At the third rotary, go straight (second exit). This rotary is at the intersection of Rue de Geneve and Rue de Malivert, but is not shown in [map 3](#) because it is under construction at this time (May 2008).
- At the fourth rotary (Place des Fetes in [map 4](#)), turn right on to Rue des Hautains (first exit).
- Turn right on to Rue de la Prairie.
- Go to the first building on the left.
- Go up the stairs and take the pedestrian bridge to the [building entrance](#).
- Use the door bell for [801](#).
- The SLAC apartment is on the first floor, the first door on the right after entering the building. From the outside, it is the one with the blinds down in this [picture](#).

## Keys

There are four keys for the apartment:

- Key to outside door and common areas is the rightmost in this [picture](#) with the triangular handle.
- The apartment [front door](#) has two locks. The second key from the left in this [picture](#) is for the top, and the third key from the left in this [picture](#) is for the bottom.
- The key to the mail box is the leftmost in this [picture](#). Our [mail box](#) is rightmost second from the top.

## Connecting to the Internet (updated 7/18/13)

- Find the network named "SLAC-apt2"
- Password is "SLACATLAS"

## Indoor Parking

There is one indoor parking space. It is perhaps too inconvenient to use on a daily basis.

The [driveway](#) to the garage is under the walkway to building entrance. Use the remote control for the vehicular gate. The upper red button in this [picture](#) opens the gate. It closes on a timer. Drive forward and look for a space with an overhead chalk label "10". Use the key in this [picture](#) to unlock the door to the parking space.

If you are walking in, hold the thingamajig on the left side of this [picture](#) near another [thingamajig](#) on the gate, and pull open the door.

## Parking

There are parking places just beyond the driveway to the underground garage. There are also many parking spaces in the [shopping center](#) just before you reached the apartment.

## Photos

Here are some pictures courtesy of Tom Markiewicz. The living room, patio area and kitchen: [living room](#), [patio](#), [kitchen](#), [bedroom 1](#), [bedroom 2](#), [bedroom 3](#), and [bathroom](#).

---

## House rules

### Cleaning

Occupants are expected to clean up after themselves in common areas such as kitchen and bathroom as well as bedrooms. In addition, a cleaning lady comes every two weeks. You may need to meet her to let her in.

The vacuum cleaner is made by Trisa Electronica, Model Dynamico 1800. You can find replacement bags at many stores such as Media Mart.

### Trash

Trash is separated into

- Paper, cardboard, etc.: yellow container
- Aluminum and glass, etc.: blue container
- Plastic bottles, etc.: green container
- Everything else, *i.e.*, non-recyclables: black containers, or shaft

## **Non-recycables**

To dispose of non-recyclable trash, there is a small room right next to the apartment. It is behind the door on your right hand side as you step out of the apartment. The light switch is on the left as you enter the room. In the far right corner is a metal contraption that opens to a shaft behind the wall. Open the lid and push the pedal to drop your trash bag. Please read the instructions and do not shove in big objects like cardboard boxes as that might clog the shaft and then the trash of the entire building will pile up all the way to the roof.

## **Recycables**

For recycables, there is a set of yellow, blue and green containers in the basement, close to the metal backdoor. You need the building key to get there from either inside or outside. There is also a glass container on the left parking lot as you come out of the building, as well as a complete set of recycling containers at the edge of the big parking lot on the right, which you pass by when you leave towards CERN.

Garbage collection appears to be on Friday mornings.

---

## **Inventory**

*This still needs to be completed*

### **Items we bought for the apartment**

#### **Bedroom 1**

#### **Bedroom 2**

#### **Bedroom 3**

#### **Bathroom**

#### **Kitchen**

#### **Living Room**
