Stanford/SLAC SC17 Floor Space Booth 563

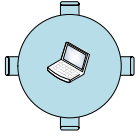

Table + 3 chairs

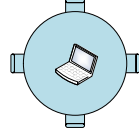

Table + 3 chairs

Problem:
SC17 booth space is near the raucous CalTech booth. Minimize the impact of their activity volume on our space.

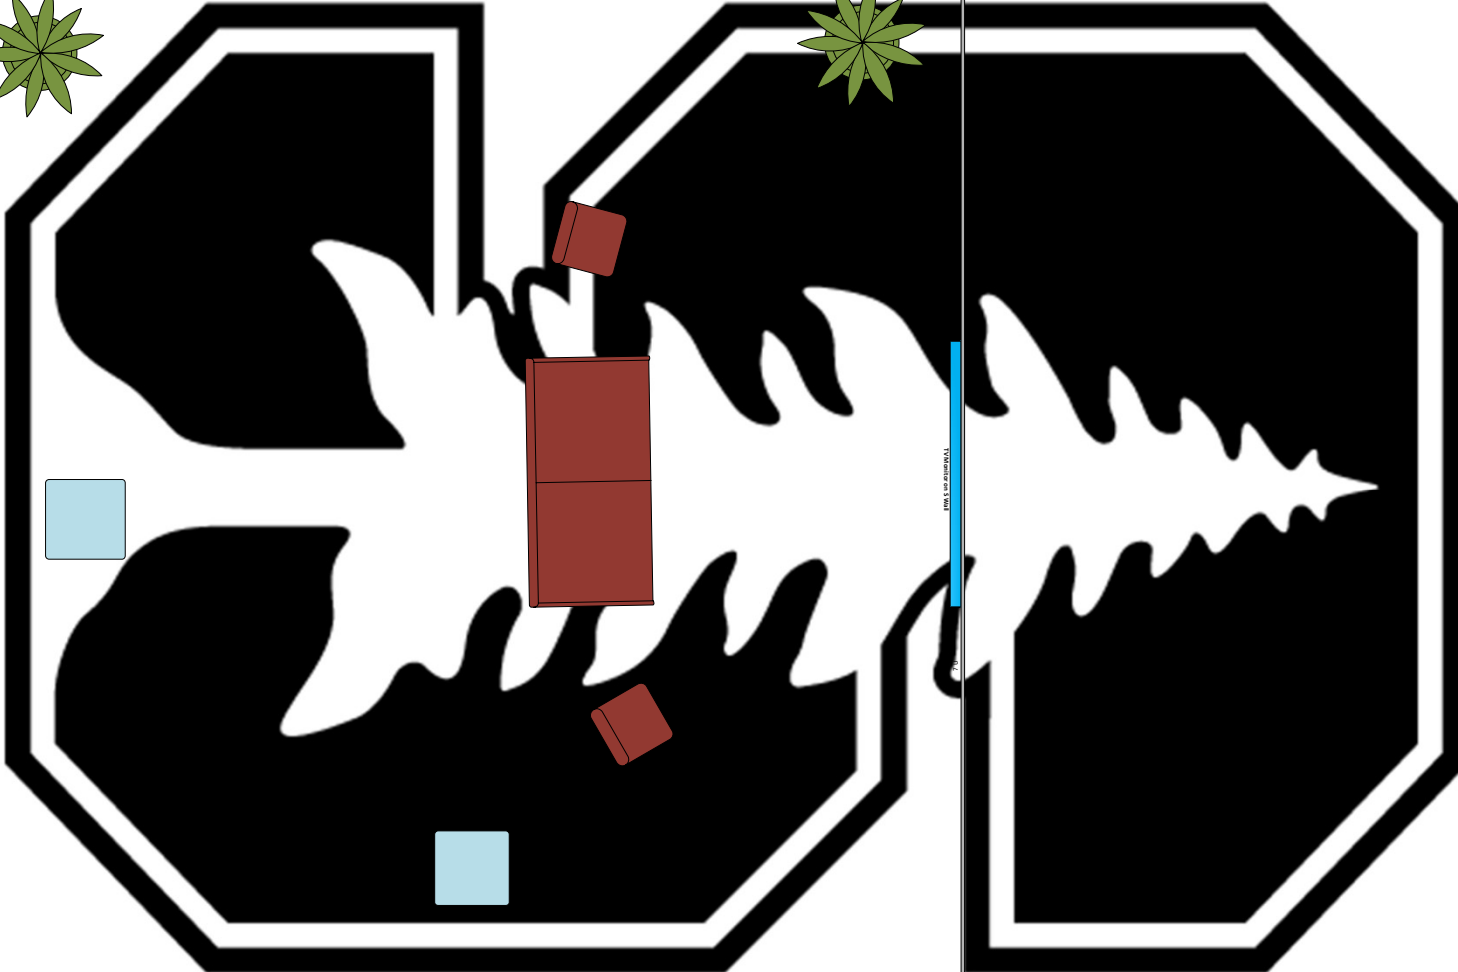

Solution: Reutilize SC16 graphics but reorient the "S" 90 degrees. Will require cutting the carpet at the "S" wall vertical. (Possible to use the remaining carpet in the enclosed area?)

Enclosed area for presentations and a storage space with erasable and opaque wall panels.

For increased visibility a rolling sign with SLAC and Stanford logos.
