Terms

- NET 30
- Lead-time estimate 4-5 weeks.
- Parts will have all holes for hardware installation masked prior to Alodine.
- All hardware will be installed prior to delivery
- Due to supply-chain shortages and the daily changes in material prices, material prices may have changed from the date of this quote to the date an order is received, there may be a price increase once the order is processed and material is ordered.
- Quote valid for 10 days.

Payment Terms

- NET 30 Days with Purchase Order for orders of \$1500 or more.
- COD, Credit Card (VISA, AMEX or Master Card) for orders of \$1500 or less.
- New Customer's orders are all COD, Check or Credit Card until three orders are completed and satisfactory bank and trade references are presented.
- "Quick-Turn" orders with delivery of 2 weeks or less are NET 15.

Re-Sale Certificate

- Please provide CA Resale certificate if you would like sales tax is to be withheld.

Lead-Times

- Estimated lead times are subject to change based on shop capacity the day order is received.
- Parametric Manufacturing will confirm lead-time when PO is received. We will do everything we can to honor the estimated lead-time, however it may increase or decrease dependent on current shop capacity the day the order is received.

Delivery Service Terms

We have ensured that our packaging and material costs versus available third party services are less. No matter what the size, shape or weight, we put extra effort into protecting your parts with strategic packaging techniques and *soft materials* in a new cardboard box, plastic container or pallet if necessary.

Level 1 - FREE - New Cardboard box or used pallet, minimal packing material to protect parts with packing slip staged in Shipping/Receiving area for customer Pick-Up.

Level 2 - \$10 materials and packaging charge per line item regardless of quantity.

- Per your instructions we will ship via UPS, FedEx or DHL.
- Please indicate rate of service: Next Day, 2nd Day or Ground.
- Shipping service charges will be added to the invoice or you can provide your account number.

Level 3 - \$75 Expedited Door to Door delivery for parts of 40 pounds or more within a 30 mile radius.

- Rather than wait and pay large fees for freight delivery or bulky items, we will deliver your parts to your door the day they are finished with our company truck and driver.
- We may pack your parts on a pallet or in a special container.
- If multiple jobs are included in a single delivery, only a one time \$75 charge will apply.

Push-Out/Pull-in Delivery Policy

- Delivery of parts may be pushed out for later delivery dates *only once*, but only within a 12 week period from the date of PO received.
- Delivery of parts may be pulled-in upon request *only once* if current shop capacity is not prohibitive; confirmation required for each request.
- If parts are "in-process" when request for push-out is received, delivery will not be pushed-out, work will continue until completed and delivered per Due Date of PO.
- Only 1 Push-Out allowed per PO.

Staggered Shipments

- Free - Up to 3 staggered shipments for orders of \$10,000 and > 200 parts.
- \$75 per line item for quantities between 100-200.
- All quantities less than 100 will be run at one time and delivered only once.

NRE Charge for New Design orders

- A one time NRE charge will be incurred at the rate of \$40 per hour of programming for new part designs; cost included in quote/estimate.

**Your submittal of a PO is your agreement to the above terms unless specific acceptations have been previously arranged in writing with Parametric Manufacturing.*

**Please contact us to discuss different terms if needed.*

***Please provide the following notes on your PO:

- Payment Terms per above terms.
- Requested Delivery Date.
- Delivery Service Level, preferred shipper and account number if applicable per above.
- Staggered Shipment dates and quantities if applicable.
