

Report on IT Subcouncil

Stuart Marshall

October 8, 2010

Membership

- Formal Representative Appointed by each ALD
- Familiarity with Operations-related requirements
- Attendance mandatory
- designee permitted
- Expected to develop recommendations
- Staff support provided by Operations
- Chair and Line Manager set agenda
- SubCouncils expected to meet at least quarterly
- SubCouncil Chairs appointed by Director/ALDs

Responsibilities

- **Provide input on existing Operations offerings**
- **provide synthesis, not a trouble ticket function**
- **user partnering forum, not a peer review**
- **Communications conduit for user-driven requirements**
- **ideas for current and future services**
- **Interact with Operations regarding opportunities afforded by proposed initiatives**
- **sourcing methodology**
- **Developing technologies**
- **SLAC Agenda, associated business plans and progress**
- **Input into Lab overhead priority setting process**
- **Standing SubCommittees or specific Task Force**

It Subcouncil Scope

- Excludes scientific computing
- Excludes core business systems (procurement, financials)
- Includes all other IT: telephones, web services, desktop support, ...
- Articulate strategic IT needs at SLAC
- My thoughts are:

ID	Title	Created By	Assigned To	Status	Priority	Due Date	Result
	SuperComputing Meeting 2010 display booth recommendations	Cottrell, Les	Cameron, Rob	Completed	(2) Normal	6/2/2010	SuperComputing 2010 (SC10): campus does not want to participate, and nobody at SLAC has expressed interest. With this being the 50th anniversary of the laser, a possibility might be a tie in to LCLS. However without considerable interest it appears SLAC and Stanford will not participate this year. This task is closed for the ITSC.
	Scientific Computing Recharge Model	Cottrell, Les	Cameron, Rob	Completed	(2) Normal	6/2/2010	The Scientific Computing Task Force is coming up with a charging model. It asked the ITSC for ideas. Nothing came up so it was handed back to the Scientific Computing Task Force. This is closed for the ITSC.
	Online Documentation of Desktop Services Support	Cameron, Rob	Ringgold, Norm	In Progress	(2) Normal	12/31/2010	
	Summary of OCIO Catalog of Services and Service Levels at SLAC	Cameron, Rob	Lemma, Donald	In Progress	(2) Normal	10/31/2010	
	Review of PBX Upgrade Proposal	Cottrell, Les	Cameron, Rob	Completed	(2) Normal	7/21/2010	The ITSC unanimously recommended option 1 for the PBX upgrade plans. Since option 1 is a strict subset of option 2, this choice allows the OCIO to proceed to option 2 in the future as desired or needed.
	Gather information about planned purchases of equipment non-compliant with IPv6	Cameron, Rob	Cameron, Rob	Completed	(1) High	6/15/2010	
	Priority Ranking of FY11 initiatives in IT	Cameron, Rob	Cameron, Rob	Completed	(1) High	8/18/2010	<p>The ITSC reviewed the complete list of proposed initiatives with priority rankings pre-defined by the OCIO.</p> <p>Summary of changes as a result of ITSC review:</p> <ol style="list-style-type: none"> 1. work by the OCIO on Web Content Management based on the Interwoven tool to be suspended immediately, pending further recommendations from the OCIO (Imre Kabai) on WCM alternatives to Interwoven, and generation of a new WCM plan to be submitted to the SLAC Directors with ITSC approval. 2. Move the initiative on User Identity Management from "Good to Have" to "Important".
	Summary to ITSC on OCIO Web Content Management plans and tools; and expected work in FY2011	Cameron, Rob	Kabai, Imre	Completed	(2) Normal	9/15/2010	<p>At the ITSC meeting on 9/15/2010, Imre Kabai presented the results to date from a task force set up by the OCIO to assess needs and solutions for Web Content Management at SLAC. Imre's presentation is attached. At the meeting, there was on-going discussion of the scope and specifics of WCM needs at SLAC. As a result the SLAC CIO decided to postpone further work on deploying a WCM system based on Interwoven at SLAC. Any further deployment of WCM will be postponed until at least next year.</p> <p>The follow-up action on the ITSC to review and respond to Imre's plan is also cancelled, because of the CIO decision to postpone WCM deployment.</p>
	Recommendations from ITSC to SLAC CIO and ALDs on Web Content Management processes and tools at SLAC	Cameron, Rob	Cameron, Rob	Completed	(2) Normal	10/20/2010	This action item for the ITSC is cancelled, because of the CIO decision to postpone any further deployment of a lab-supported WCM system at SLAC until further notice.
