

Mapping of files

Scripts

Scripts are kept in `/afs/slac.stanford.edu/package/pinger` (maybe abbreviated to `/afs/slac/package/pinger` if logged on at SLAC).

CGI scripts are kept in `/afs/slac/g/www/cgi-wrap-bin/net/` and are protected for security reasons, so you cannot see them unless you have been trained and authorized on cgi scripts and SLAC. If you need to view a script contact Les Cottrell.

e.g. <http://www-wanmon.slac.stanford.edu/cgi-wrap/checkremote.cgi> is at `/afs/slac/g/www/cgi-wrap-bin/net/fahad/PingER/remNodeStatus.cgi`

Data

Data is saved in nfs and afs space. See <https://confluence.slac.stanford.edu/display/IEPM/PingER+data+flow+at+SLAC>

Web pages

Web pages are saved as follows:

<http://www.slac.stanford.edu/> then the file is under `/afs/slac/www`

E.g. <http://www.slac.stanford.edu/comp/net/wan-req.html> is at `/afs/slac/www/comp/net/wan-req.html`, <http://www.slac.stanford.edu/comp/net/wan-mon/tulip/> is at `/afs/slac/www/comp/net/tulip/index.html`

<http://www-wanmon.slac.stanford.edu/> then the file is under `/afs/slac/www/net/wan-mon/`

E.g. <http://www-wanmon.slac.stanford.edu/wan-mon/viper/pinger-coverage-gmap.html> is at `/afs/slac/www/comp/net/wan-mon/viper/pinger-coverage-gmap.html`

<http://www-iepm.slac.stanford.edu/> then file is under `/afs/slac/g/www/www-iepm/`

E.g. <http://www-iepm.slac.stanford.edu/pinger/sites-per-country.html> is at `/afs/slac/g/www/www-iepm/pinger/sites-per-country.html`, <http://www-iepm.slac.stanford.edu/pinger/site.html> is at `/afs/slac/g/www/www-iepm/pinger/site.html`

Confluence web pages are in the wiki space <https://confluence.slac.stanford.edu/>

E.g. <https://confluence.slac.stanford.edu/display/IEPM/PingER> you will need a confluence account to look at. If you need a confluence account contact Sadia.
