General requirements

General requirements

in order to checkout and build the DBD you'll need

1. PDFLatex (to compile the Tex source and build a PDF)
2. SVN client (to access the repository)
3. PDF viewer
4. Python 2.x (3.x isn't tested)

Provided, these requirements, one should be able to build the DBD on almost any system.

Detailed instructions are available for Linux and Windows
