RTEMS 4.10.2 is available

I updated, built and installed RTEMS 4.10.2 at `/afs/slac.stanford.edu/g/cci/package/rtems/4.10.2`. The source is in AFS, but the build and installation (target) directories are located on the Lab 1 server (`rdsrv101`), which are accessible via soft links from the AFS location (these are of course only valid from Lab 1 machines).

Let me know if you have any problems with this installation.
