# CCB Request - Release Pipeline web front end 3.1

## Motivation:

Lots of bug fixes, some new features like caching for the main (index.jsp) page for faster load times on average, code syntax highlighting and numbering for viewing scriptlets.

## Components to be upgraded:

org-srs-pipeline-web-3.0 to org-srs-pipeline-web-3.1

## Related Jira Issues:

Resolved bugs
SSC-323

## Backward Compatibility:

No backward compatibility issues should occur.

## Upgrade Procedure:

1. Deploy to tomcat

## Back-out Procedure:

The current version can be restored if needed.
