Confluence Admins

The following people are the ATLAS Confluence Admins. Anyone who likes to be added to or removed from the *atlas-confluence-editors* group, should contact one of the admins. They will send an email to the SLAC Confluence Admins (confluence-admin@slac.stanford.edu) to request the change. The email will generate a SLAC IT Support ("Service Now") ticket and is usually processed the same day. A new member must have logged into Confluence at least once before they can be added to any group, so the admin should make sure they have done that before creating the ticket.

> User list not rendered as you do not have the privilege to view user profiles.
