JAS3 Download

Currently release v0.8.2 is available. (The initial zero in the version number indicates that not all of the features planned for "1.0" are yet included, but the features that are included are quite stable and usable).

JAS3 can be downloaded in a variety of formats for different platforms:

- [Windows installer](#) (Java not included, requires Java 1.4 or 1.5 already installed)
- [Linux \(.tar.gz\)](#) (Java not included, requires Java 1.4 or 1.5 already installed)
- [Mac OS X \(.tar.gz\)](#) (Packages as a Mac OS X application - tested with Mac OS X 10.3.x)
- [Solaris \(.tar.gz\)](#) (Java not included, requires Java 1.4 or 1.5 already installed)
- [Generic \(.tar.gz\)](#) (No native libraries, Java not included, requires Java 1.4 or 1.5 already installed)

Alternatively you can build JAS3 yourself using the source code.

Other versions can be [downloaded here](#).
