ViPER Extension Details

Improve ViPER/ PingER

Minor Modifications

- Needs help menu to be added that points towards the documentation.
- The sites on the top left corner needs to be identified.
- Graphs show up too slow, need to improve this.
- Zoom has a problem that needs to be corrected.
- Need to explain the coloring of the links.
- Select SLAC to CERN no data -- Bug.
- Add regions to sites/country table.
- Allow sorting of sites/country table.
- Add more metrics.
- Update the documentation on www.slac.stanford.edu/comp/net/wan-mon/viper
- Add PingER site list to help menu.

Major Improvements

- Add transparent graphs to regions using (Java Analysis studio) PingWorld is an example demo.
- Color various regions according to there performance.
- Provide detail information of beacon sites in Detail table.
