

GlastRelease v15r40

[Run Manager Summary](#)

[System Tests v15r40](#)

System Tests Report Summary

No differences for the comparison with the previous release, [GR v15r39](#)

This is a candidate for L1Proc. There are no differences in the comparison with the preceding L1 Proc version, [GR v15r39](#). None were expected. The main change in this release is the inclusion of photon direction alignment corrections.

Changes

- calibUtil, astro, AnalysisNtuple, CalibSvc, CalibData – alignment and aberration corrections
- AnalysisNtuple, Event, enums, job options - Gleam event flags
- Gleam - tweak to order in job options
