## **Building fox 1.4.34-gl1**

## **About fox 1.4.34-gl1**

fox-1.4.34-gl1 is just fox-1.4.34 built with the "--with-x" configuration option. This version of fox, *fox-1.4.34-gl1*, is needed by FRED-v0r100p1 only on the Linux platforms.

## Linux platform

- Download/Extract the fox-1.4.34.tar.gz archive (available in SLAC on /afs/slac.stanford.edu/g/glast/ground/GLAST\_EXT/rhel4\_gcc34/fox/)
  Run the configure script with the option, --with-x (you can ignore the WARNINGS that you see after running the configure script)

./configure --prefix=\$INSTDIR --with-x
