

"Enhanced Business Card" - Upload

On Tuesday afternoon we will have an ice cream social, designed to help you get to know your fellow scientific computing workshop attendees. We encourage everyone attending to upload a one page "enhanced business card" with a picture of themselves, and a summary of their work and interests. These will be displayed during the ice cream social. **Please save it in a .png format!**

Note that you must be logged in to confluence using your SLAC unix or windows id before you will be able to upload. The login link can be found at the top of the confluence page. If you have problems uploading your slide please send it to tonyj@slac.stanford.edu or contact a member of the organizing committee.

A composite image consisting of two photographs. The left photograph shows a man with glasses and a beard, wearing a red and black plaid shirt over a grey t-shirt. He has three pins on his shirt: a pink one, a green one, and an American flag. He is sitting in front of a computer monitor displaying a blue and white abstract image. The right photograph shows a baby with a severely distorted face, characterized by a large, wide, and misshapen mouth and a prominent, bulbous nose. The baby is wearing a white diaper and is sitting on a pink patterned surface. A red arrow points from the baby's face to the man's face in the left photograph.
