

Shift Logs

Beamtest Shift Log

This page summarises the beamtest shift log entries. To have Confluence automatically send you e-mail about updates to this page, click on the  icon at the upper right.

. Entries items can contain attachments and comments. The tables below are **automatically generated**. For this to work, when you are making the shift log entry you must add the label **shift**.

We are testing the shioft log to see if it is useful for data taking. We cna write long messages like this one and also include pictures and snapshots and correct entriues as well

Luca found oyut a mistake and mustyped all over... ha ha ha !

The cover is [sitinmg](#) near the tablke
