

System tests web front-end 0.7.2

A new version of the system tests front-end (0.7.2) is installed.

<http://glast-ground.slac.stanford.edu/SystemTests/>

(note the new URL, the old web007 URL still works, but please switch to using glast-ground as eventually the web007 access will go away).

See the [release notes](#) for more information.
