## Optical measurements

E-mail from Gabriel:

- - file with optical measurements from Gabriel
- - text version of the same file
- - text version of the file with 1-point correction

## Quality check

### Quality check in X-Y plane

### Quality check in Z

## Corrections

## Constants

### center

### tilt

## geometry

### Alignment check with rings

TBD

## Deployment

Parameters for geometry (and old style center and tilt) are available in

Archive: `/reg/g/psdm/detector/alignment/cspad/.../calib/...`

- `0-end.data`    - non-corrected
- `1-end.data`    - corrected

Deployment: for all experiments from 2015-MM-DD to 2015-MM-DD
