

Malaysian unrest Aug-Sep 2015

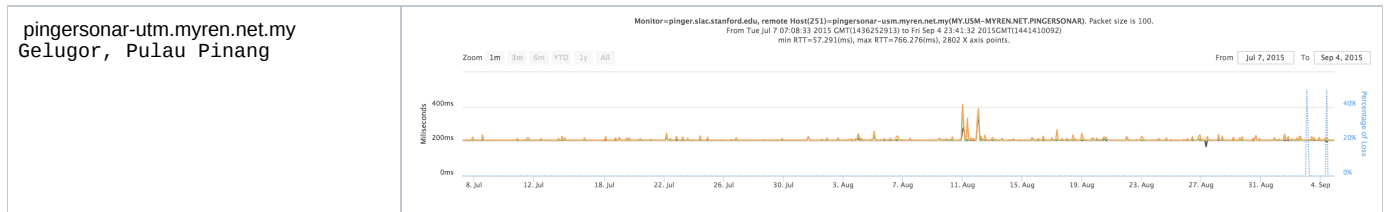

Introduction

There were [demonstration against the government in Malaysia](#) from August 28-31st, 2015. Also Anjum and Johari reported Denial of Service attacks by the Anonymous group against UM and UNIMAS.

PingER RTT & loss time series from SLAC to UM and UNIMAS

We looked at the time series from the UM and UNIMAS hosts. We also looked at the [losses for Malaysian hosts monitored from SLAC](#) and noticed a definite increase during the above time period for UPM, USIM and UTAR. The time series are shown below.

The increase in outages cab be seen in the 100% losses starting after August 27th. Zooming in for UM and UNIMAS we see below complete outages (100% loss for these hosts.):
