How do I find out what version of SLIC I am running

The command *slic -v* will print slic's version and immediately exit.

```
[1019 $] ./slic/bin/Linux-g++/slic -v
Start Time <Thu Dec 14 20:45:18 2006>
Simulator for the Linear Collider; SLIC; v2r0p12; Jeremy McCormick and Ron Cassell; SLAC; Fri Dec  1 15:47:39
PST 2006
```
