Checkout2 Likelihood analysis

Likelihood analysis for the science tools checkout

The tools in this area are **gtlikelihood**, **gtcntsmap**, **gtdiffresp**, **gtexpmap**, **gtlivetimecube**, **gtpsf**, **gtsrcmaps**, and **gttsmap**. Most of the tools are essentially helper applications for **gtlikelihood**. The utility **viewCuts** is also available for examining the DSS keywords in a FITS file.

Short summaries of the science tools and links to the available documentation are on the tools summaries page.

(11 Apr 2005) Review of gtcntsmap and gtlikelihood by Dave Davis.

(11 Apr 2005) Review of likelihood analysis by Benoit Lott.
