

# Getting a SLAC Computer Account

Collaborators and users should get a SLAC computer account in order to access their data and utilise our compute facilities at SLAC. This is a two step process:

1) obtain a SLAC ID Number - This requires a legal agreement between SLAC and your home institution and registration of yourself with the DoE FACTS database. This is handled by our onboarding process.

2) Apply for a SLAC Computer Account: follow the instructions at [https://slacprod.service-now.com/kb\\_view\\_customer.do?sysparm\\_article=KB0010082](https://slacprod.service-now.com/kb_view_customer.do?sysparm_article=KB0010082)
