

How do I build LCDD

The LCDD CVS head is always in sync with SLIC.

```
cvs -d :pserver:anonymous@cvs.freehep.org:/cvs/lcd co lcdd
cd lcdd
./configure --with-geant4=/path/to/geant4 --with-clhep=/path/to/clhep --with-xerces=/path/to/xercesc --with-
gdml=/path/to/gdml
make
```
