

02.24.2020 EC

Present:

- Next Collaboration meeting: **SLAC on May 14, 15 and 16**
- [Preparations for the 2021 run, planning the work in the hall](#) - Stepan
- SVT work, when - Tim, move to the cleanroom: tentatively end of August or beginning of September
- [Proposal update for PAC48](#) - Stepan
- Update on 2016 analysis - *everyone agreed that studies for systematic uncertainties should not be a showstopper for unblinding*
Vertexing analysis - John: *a lots of progress, regular meetings, the initial version the analysis note is out, but some of the deadlines have been missed, need to revisit the schedule this week, a new set of milestones*
Resonance Search - Omar: *decent progress has been made, but we are behind about 1.5 months, a new set of milestone are needed*
- Calibration of 2019 data and [2019 MC](#), April 7-8 workshop - Marzio/Raphael
