

Silicon Detector Workshop, SLAC, January 28-30, 2008

Silicon Detector Workshop, SLAC, January 28-30, 2008

The Silicon Detector Collaboration will hold a Workshop at SLAC on January 28-30, 2008. Everyone participating the SiD collaboration, as well as those interested in joining and learning more about SiD, are welcome to attend and urged to register and make travel and accommodation plans.

The Workshop will focus on progress toward preparing the SiD Letter of Intent. In particular, we will discuss global optimization of SiD, readiness of PFAs and tracking pattern recognition/reconstruction, and benchmarking plans, as well as review progress with subsystem R&D.
