

# GlastRelease v15r45

[Run Manager Summary](#)

[System Tests v15r45](#)

## System Tests Report Summary

No differences for the comparison with [GR v15r42](#).

Differences for the comparison with [GR v15r40](#) are described in the report for [GR v15r42](#).

## Changes

- CHS/eventFile - prep for FSW B1-1-3
- IsfData, RootConvert - GammaRsdV3 in prep for FSW B1-1-2
- digiRootData - GammaFilterV3 added for FSW B1-1-2

## Comments

The filter energy plot is flagged as different for this release and several before, but that is superficial. The plot was changed from Mev to log MeV and so the comparison is bogus.
