Host: Ric

Participants: Gregg, Bryrson, Martin, ACD, Lester, NRL, Selim, Jana, Hiro

- ACD
 - No use of Selim's fix yet
 - Running with LATTE 4.8.3 and Hippo 1.14
 - Test report memory usage - suspecting a leak here
 - No need for Paul to make another visit
 - Would like to use the latest Hippo, check with Paul.
- CAL
 - operations
 - Wants to give reqts for LATTE 5
 - FM106
 - I&T Testing FM109, 108
- TRG
 - Trigger GUI bug fixes
 - Doesn't use Hippo for the trigger GUI
 - Wants to use Jim's strip charts
- TKR
 - Jim making schemas for I&T
 - Deadstrips file
- ISOC
 - Nothing
- Selim
 - Discussion w/ James
 - Set of tags used in 4.9 will stay the same.
 - James will change future PIG to be compatible with previous versions. Current PIG has an issue.
 - Handle Leaks
 - Due to execGUI call from a scriptRunner thread that is created every run.
 - Fix is to use CmdSynch thread which is created once per session.
 - Bryson suggests valgrind tool for debugging memory leaks.
