June 8, 2005

Participants: Gregg, Bryrson, Martin, ACD, Lester, NRL, Selim, Jana, Hiro

- O No use of Selim's fix yet
- Running with LATTE 4.8.3 and Hippo 1.14
- O Test report memory usage suspecting a leak here
- No need for Paul to make another visit
- O Would like to use the latest Hippo, check with Paul.
- CAL
- o operations
- Wants to give reqts for LATTE 5
- ° FM106
- o I&T Testing FM109, 108
- TRG
- o Trigger GUI bug fixes
- Doesn't use Hippo for the trigger GUI
 Wants to use Jim's strip charts
- TKR
- o Jim making schemas for I&T
- Deadstrips file
- ISOC
 - Nothing
- Selim
 - o Discussion w/ James

Set of tags used in 4.9 will stay the same.

James will change future PIG to be compatible with previous versions. Current PIG has an issue.

o Handle Leaks

Due to execGUI call from a scriptRunner thread that is created every run.

Fix is to use CmdSynch thread which is created once per session. Bryson suggests valgrind tool for debugging memory leaks.
