

12 Feb 08 GCR Meeting Notes

- Status Review
 - NRL (Mark, Zach, Sasha)
 - Mark is working on calib procedure doc (based on presentation)
 - Consensus seems to be to adopt Benoit's suggested scheme for correction to electron equiv. energy
 - Zach finishing up configuration tools, will start this week on digi mods
 - Sasha working on trigger level calibration
 - LPTA (Fred, Johann, Claudia)
 - Over the next 1-2 weeks, Claudia will start work on code to filter protons and He out of MIP and DGN filter streams
 - Johann will be in residence at LPTA starting end of week, will continue work on heavy ion mods to TKRrecon
 - SLAC (Elliott, etc)
 - Yvonne and Ping are taking a critical look at BT calibrations, etc to try to find a pattern in discrepancies
 - Other
- Bari summary (Sasha)
- Meeting schedule discussion
 - Weekly meetings
 - Alternate weeks are status and communication for software developers
 - Primarily Zach, Sasha, Fred, Johann, Tracy
 - Other weeks are as before – everyone can present
- Action items [pdf](#)
