

Pinger Files

Data Archives

The PingER archival data filespace is kept on the NFS file server netfs03.

You can find out what is in the filespace by doing:

```
34cottrell@pinger:~>ls -l /nfs/slac/g/net/pinger/

One can find out where these files are located by doing:

```
renata@victoria $ 12:23 cd /nfs/slac/g/net/pinger/pingerreports/hep/duplicate_packets/
renata@victoria $ 12:24 pwd
/a/netfs03/u2/g.net.pinger/pingerreports/hep/duplicate_packets
```

This tells where to find the files in case you do not know they are on netfs03. You can manipulate the files by logging (ssh) onto netfs03 and using something like:

```
31cottrell@netfs03:~>cd /u2/g.net.pinger/pingerreports/hep/duplicate_packets/
32cottrell@netfs03:/u2/g.net.pinger/pingerreports/hep/duplicate_packets>
33cottrell@netfs03:/u2/g.net.pinger/pingerreports/hep/duplicate_packets>ls -la duplicate_packets-100-by-site-60days.txt
-rw-r--r-- 1 kalim iepm 942080 Oct 23 11:08 duplicate_packets-100-by-site-60days.txt
```
