

Home

This is the GLAST Java and J2EE wiki. It is the repository of knowledge for all things Java and J2EE that GLAST has learned during the design, development and deployment of their J2EE infrastructure projects.

Getting started tutorial

Contents

- [CVS](#) describes how to access the CVS repository for Glast Java projects.
- [Coding Guidelines](#) describes the coding rules GLAST follows in their Java development work.
- [Projects](#) documentation on some existing projects

Meetings

Items related to Glast Java are often discussed at the [weekly data handling meetings](#)
