

# GlastRelease v17r35p1gr02

[Run Manager Summary](#)

[System Tests v17r35p1gr02](#)

**GlastRelease Tag:** rhel4\_gcc34opt

## System Tests Report Summary

No significant changes appear in the system tests for comparison of GR v17r35p1gr02 (rhel4 tag) and [v17r35p1](#) (rh9 tag). There are flagged histograms that show the minor variations common to rhel4 and rh9 (v17r35p1 tests used the rh9 build) comparisons. These do not raise any concerns.

*Note that this is a backup update for L1 because of changes in the CAL distributions that are not yet understood for [GlastRelease v17r35p3](#) and [GlastRelease v17r35p5](#).*

## Changes

- GlastClassify - various updates of Pass 7 xml worksheet (based on [v17.10](#))
- IExternal/obf - B1-1-3-gl2, which is the rebuild of the obf software for rhel 4 gcc34 (previous rhel 4 vs rhel 3 validation here: [GlastRelease HEAD1.1259.2.1.2.1](#))
- Rootlo - branch management for reading
