

Confluence & JIRA Outage TODAY April 17 2010 from 1800 - 2000 PDT

Confluence and JIRA will be unavailable this evening Saturday April 17, 2010 6:00 PM - 8:00 PM PDT. During the outage confluence admin will install a critical JIRA Security patch, released yesterday, which addresses vulnerabilities related to XSS (Cross Site Scripting) attacks and privilege escalations in all versions of JIRA.
