January 13 2006

As usual we will meet at 10am PST in the SLAC Kavli room, and in VRVS room CenA.

Agenda

- DC2 Numbers
    - 5 Billion background events (almost) generated = 1 day of background
        - 50 Million background events/day after onboard trigger/filter
            - *55 days = 2750 Million (size of background overlay map)
        - Offline cuts = factor of 10 to 100 reduction = 5 million events/day (worst case) for astro server
            - *55 days = 275 million (yikes, lets hope it is closer to 100 reduction)
- New server status.
    - Aliases defined in Proposed server usage are now set up
        - New 300G disks are installed on glast-mysql01, glast-mysql02, glastlnx09
    - IIS windows servers are ready to go.
        - glast-ground will be repointed soon, should be transparent to everyone except Chuck
- DC2 Data Server Event Display plans.
- Status Reports.
